SUMMARY

Full-stack software engineer with nearly three years of professional experience building and modernizing production web applications. Owned Angular/AWS loan workflows used by 1,500+ USDA Farm Service Agency staff and applicants nationwide, with experience in financial tooling, legacy modernization, and automated testing.

PROFESSIONAL EXPERIENCE

Software Engineer | TSPi | Lynnwood, WA | Nov 2023 - Jul 2026

- Owned and delivered Angular loan workflows running in production for 1,500+ USDA Farm Service Agency staff and applicants nationwide.
- Built an Angular, Node.js, and AWS Lambda financial calculator that reduced manual calculation overhead by 40%.
- Modernized a 10+ year-old Java/Struts application into Angular front ends and Spring Boot/Hibernate services; maintained 98% Jest coverage on owned Angular modules.
- Developed debt-consolidation features presented to senior FSA and congressional stakeholders.

Software Engineering Intern | T-Mobile | Bellevue, WA | Jul-Aug 2021; Jul-Aug 2022

- Reduced runtime of core sorting and data-processing operations in the SyncUP product by 50%.
- Mentored two junior interns in Python through independent project delivery.

SELECTED PROJECTS

Listing Studio | Next.js, React, TypeScript, PostgreSQL, OAuth

- Built a commerce workspace for a digital-products business, supporting listing creation and validation, Etsy/YouTube integrations, and a daily content pipeline.
- Implemented database-backed sessions, revocation and account recovery, plus OAuth integrations with PKCE and encrypted refresh tokens.

A&D Home Care & Aging with Grace AFH | React, TypeScript, Cloudflare Workers

- Designed, built, and launched the live site for two licensed Washington adult family homes, from owner requirements and photography through custom-domain deployment.
- Built an owner-managed room-availability API so staff can update listings without redeployment, with validation, caching, and fallbacks.

Fail-Closed Trading Risk Engine | Python, IBKR API, SQLite

- Built a paper-only options research system with signal backtesting, trade-entry checks, persistent loss limits, and restart-recovery evidence.

TECHNICAL SKILLS

Languages: TypeScript/JavaScript, Python, Java, SQL, C#

Frontend: Angular, React, Next.js, HTML/CSS, Tailwind CSS

Backend & cloud: Node.js, Spring Boot, AWS Lambda, S3, API Gateway, REST APIs, PostgreSQL, SQLite

Testing & delivery: Jest, unit testing, CI/CD, Git, code review, Agile/Scrum

EDUCATION & ADDITIONAL

B.S. Psychology | University of Washington, Seattle | Expected Summer 2027

A.A. & Full Stack Developer Certificate | Edmonds College, Edmonds, WA | 2022-2023

USDA Public Trust | Favorably adjudicated (prior contractor position)
